Meeting Objectives:
- To provide education regarding the implications of shoreline change in South Carolina and highlight actions communities can take to address the associated risks.
- To foster an environment where participants are able to share their views and provide insight related to efforts being taken within their community, in addition to identifying what additional resources their community needs.

12:00 pm  Registration
1:00 pm  Welcome & Introduction
Nicole Saladin, Coastal Training Program, North Inlet-Winyah Bay NERR
1:10 pm  Session One: Striking a Balance - Implications of Shoreline Change along the South Carolina Coast
   Implications for the Physical Environment
   Paul Gayes, Director, Center for Marine & Wetland Studies, Coastal Carolina University
