

Fridays • March 23rd to June 8th • 9 AM to 3 PM

Winyah Master Naturalist

Spring 2018

Play and learn in the mountains, forests, marshes and beaches

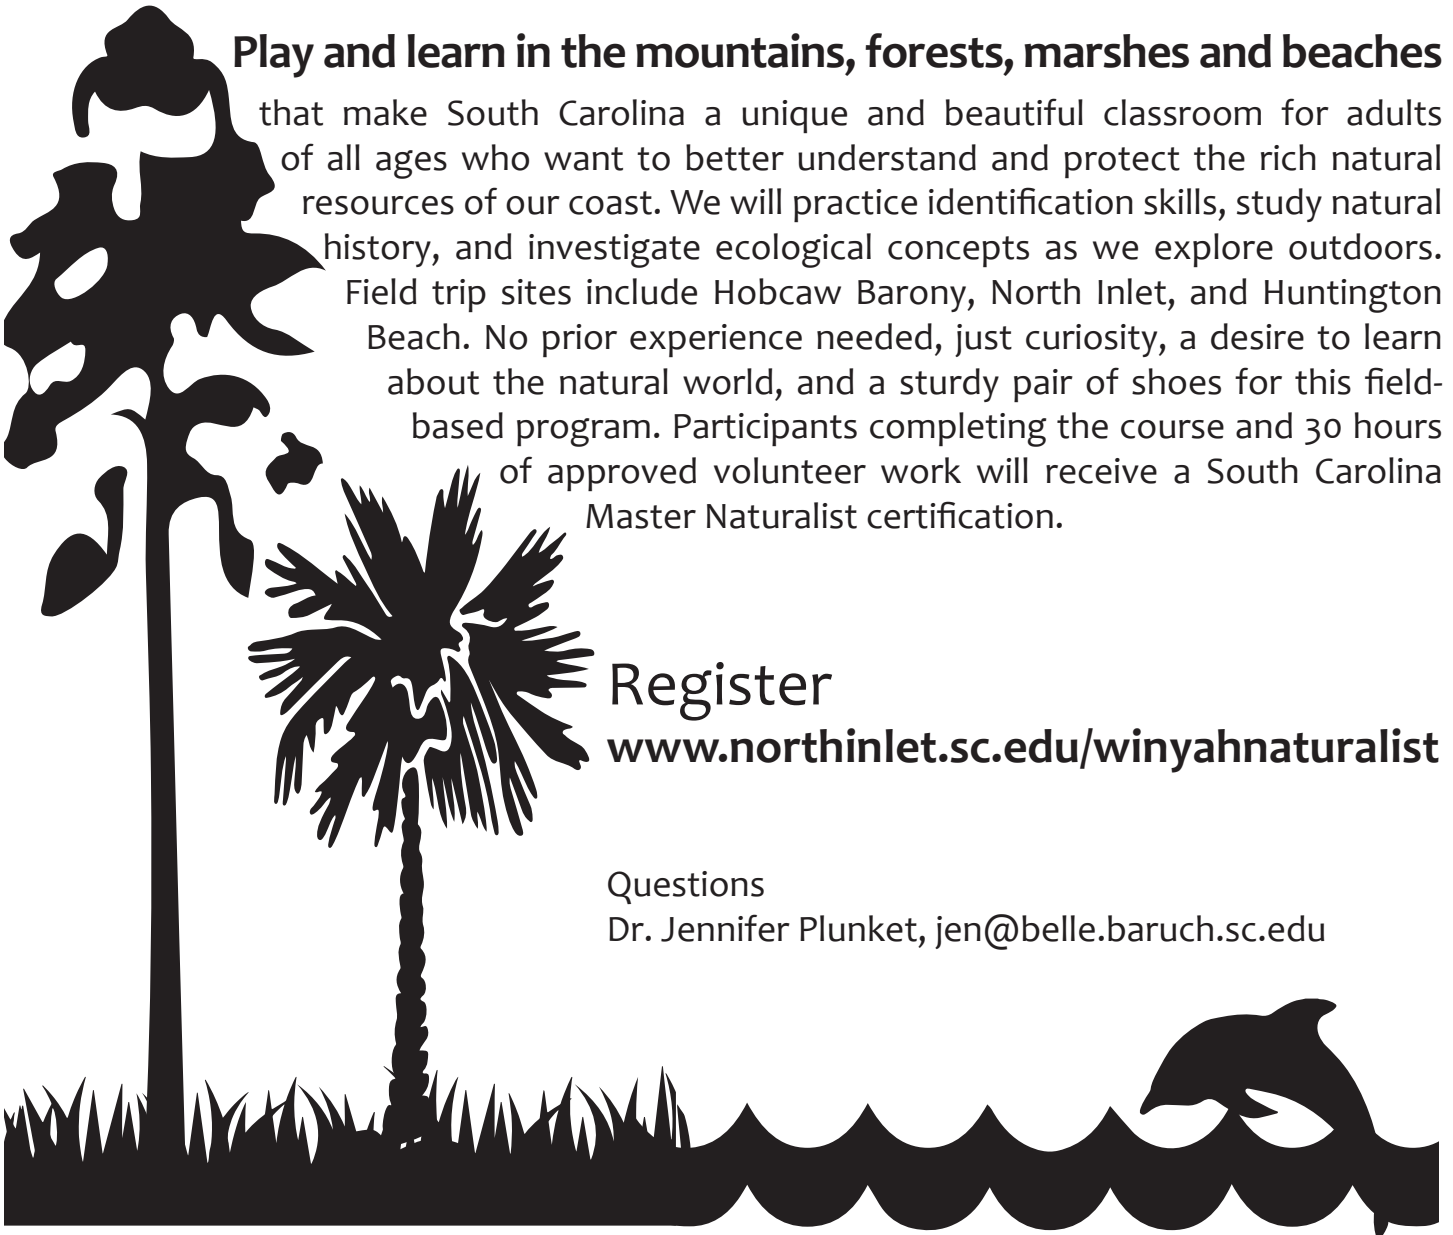

that make South Carolina a unique and beautiful classroom for adults of all ages who want to better understand and protect the rich natural resources of our coast. We will practice identification skills, study natural history, and investigate ecological concepts as we explore outdoors. Field trip sites include Hobcaw Barony, North Inlet, and Huntington Beach. No prior experience needed, just curiosity, a desire to learn about the natural world, and a sturdy pair of shoes for this field-based program. Participants completing the course and 30 hours of approved volunteer work will receive a South Carolina Master Naturalist certification.
